LIFETIME ON VINYL & HARDWARE  
UNBEATABLE LIFETIME WARRANTY  
10 TO 20 YEARS ON THERMAL UNIT

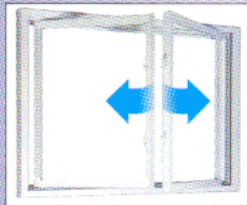

## Glass

- **Commercial Glazing Technique** – exterior glass stop combined with the wet glazing technique provide the ultimate defense with long lasting beauty.
- **High Performance Glass** – Low E, Argon Gas, and SecurGlass are just some of the more popular glass options ordered for energy efficiency, safety and security.
- **Warm Edge Spacer Technology** – assists in the reduction of perimeter condensation on an insulated glass unit, resulting in desired comfort.
- **IGMAC Approved** – Certification #'s – Aluminum #019603 - Thermal Edge™ #029625 - Inex™ #029619

## Frame

- **Fusion Welded Frame & Sash** – creating seamless continuous profile and eliminating potential air leaking gaps.
- **Strong Solid Vinyl Profiles** – 3-1/4" multi-chambered design provides structural strength and insulating air pockets, reduces heat and cold transfers.
- **Integral Pull Rails** – permits sashes to be operated with ease.
- **Large Interlock with Double Protection** – brings double weatherstrip sashes closer together and locks them air tight, another secure line of defense against the weather.
- **Built-in Water Management systems** – carefully engineered independent drain allowing for the quick water management to the exterior.

- **Integral J Fin** – ideal for siding application, cleaner details with improved performance.

Tilt In  
For Easy  
Cleaning

## VERSATILE & FLEXIBLE

For new homes, these windows are built to your individual needs with options of nail fins and brickmould, with jamb returns and frame extensions to fit your type of wall construction.

## Hardware

- **Weatherstrip For Results** – Schlegel Fin seal is the superb weather seal design that is ideal for sliders, with a bulb seal on the sash.
- **Night Latch** – provides secure ventilation. (Optional)
- **Low Profile Tilt Latches** – present a cleaner slim line appearance, with the ability to tilt both sashes in for cleaning from the inside of your home.
- **Cam Lock** – 180 degree locking cam locks pulls the sashes together for a positive seal.
- **Insta Lock Shoes** – immediately locking when tilting in a sash for cleaning, the shoes expand in several directions and securely lock themselves in place. Equipped with stainless steel pivot bars.
- **Submerge Drain Covers** – keeping the bugs out and allowing the water to flow to the outside.

Optional  
internal grills  
for beauty  
and  
distinction.
